

DR. MOHAMAD HAMIM BIN MOHAMAD HANIFAH, MD (USM), MMED (USM), FEWM, FFRRHHed
Associate Professor and Consultant Emergency Physician
Department of Emergency Medicine
Faculty of Medicine and Health Sciences
Universiti Malaysia Sabah (UMS)

With over two decades of experience in medicine, Dr. Hamim is an Associate Professor and Consultant Emergency Physician at Universiti Malaysia Sabah (UMS). His expertise spans Wilderness & Remote Medicine, Disaster Emergency Medicine, and Humanitarian Healthcare.

A Fellow of the Faculty of Remote, Rural and Humanitarian Healthcare (RCSEd) and Extreme & Wilderness Medicine (FEWM), he is also an active member of Wilderness Medical Society (USA) and Wilderness and Austere Medicine Society Malaysia (WAMS).

He has served in humanitarian missions across Afghanistan, Lebanon, Myanmar, and Cox's Bazar, delivering emergency care and training in conflict zones. In Sabah, he co-led the development of a teleconsultation and rescue support system for Mount Kinabalu—an innovative model integrating wilderness medical training with real-time high-altitude emergency response.

Currently pursuing a postgraduate qualification in Health Professions Education at IMU, Dr. Hamim remains committed to advancing ethical, compassionate, and context-sensitive care for underserved and austere communities.
